Report of the Social Security Subcommittee (SSSC)

1. **Mortality Task Force**
   The Mortality Task Force has been revitalised, with Yves Brys as the new Chairman. The TF is hoping to have a face to face meeting in Brussels in April in order to kick off their work, with the aim of having some initial work to report on in September.

2. **Adequacy Task Force**
   The Adequacy Task Force has continued its work and will hopefully also have something to bring back to the SSSC by September.

3. **Seminar on The Ageing of the EU**
   The planned seminar on our publication The Ageing of the EU did not take place, as there were insufficient registered participants to make it worthwhile.

4. **Preparation for responses**
   Since 2018 is creeping up on us faster than we would like, the Subcommittee needs to develop a work plan for preparations for the AAE's eventual response to the 2018 Ageing Report and the 2018 Pension Adequacy Report. We hope to have a conference call later in April and, all being well, intend to hold a face to face meeting in Copenhagen on 20 September before the AAE Committee meetings on 21-22 September.

Chris Daykin
Chairperson of the SSSC
