

Update on email security

26 Oct 2022, AAE Board, Lutz Wilhelmy

Update on email security

Considerations

- We frequently receive fake emails where the criminal sender pretends to be someone we know
- Sometimes, the “opposite” happens: a criminal pretends to be us and addresses our partners: our identity is misused
- It was suggested to use our @actuary.eu addresses, as everyone in this group has such an account

Findings

- The increase in security in this respect using an @actuary.eu account is
 - **significant** vs public mail accounts (gmail, yahoo, proton mail etc)
 - **nil** vs business or other well-managed mail
- The board and committee chairs are asked to take note and consider to alter their mail practice.
