

# Support for the IFoA CCAG paper “Climate Emergency – Tipping the Odds in our favour”

26 Oct 2022, AAE Board, Malcolm Kemp, Frank Schiller, Lutz Wilhelmy

# Climate paper: Decision required

## Considerations

- IFoA, in collaboration with [CCAG](#), has produced ATTM 5.1
- AAE's Sustainability and Climate-Related Risks Working Group requests that the Risk Management Committee RMC asks AAE to support ATTM 5.1
- The RMC will consider this request and draft a corresponding letter of support
- The RMC will decide if to recommend to the board that AAE should support the paper
- Malcolm, Frank and Lutz have assessed the paper in-depth already

**As an aside:** the paper should be considered for its communication quality. It seems an outstanding example how to promote the profession in a wider field. The RMC may consider to recommend that AAE adopts the paper or parts thereof as a substantiation of AAE's sustainability statement.

## The board is asked to

- review the paper ATTM 5.1
- Approve that AAE supports the paper CONDITIONAL to a corresponding recommendation of the RMC.
