

AAE as a Partner of CONVENTION A

Communication WG for
AAE Board Meeting | 29/09/2021

Background

- EAA and AMC/actuview will be hosting the Convention A in September next year
- For this event, partners of both institutions are invited to contribute program blocks to be integrated in the convention's program
- More details on the concept will be presented by Henning Wergen
- **The Communication WG has discussed in its recent meetings if the AAE should become a program partner of Convention A and what could be possibilities to engage**

Discussion

- In general, the WG is assessing positively the concept proposed and thinks it will be a valuable offering for the global community
- The event is a great chance to reach out to the European actuaries once more in 2022 and to create awareness for AAE and its topics beyond Europe
- Some concerns were raised about the timing of the convention in September considering the AAE Rome meetings taking place in October
 - However, the organizer's restrictions to stick to these dates were acknowledged and given that AAE is not the host of the event it will be possible to tailor the contributed content to the available resources
- **Overall, the WG is positive that the AAE will be able to provide suitable content for the event**

Recommendation

- Therefore, the WG recommends to the AAE Board a general commitment as program partner to the **Convention A**
- The next step will be then to define further **the contribution** to be provided **for the event's program**
 - *Already discussed options include:* AAE Roundtable as a Convention A Plenary Session, a technical session with working results of the AAE committees, AAE representatives as moderators
- For its more detailed recommendation the WG together with AAE committees will analyse the cost and efforts to realize **the corresponding formats**
