There is an open consultation, or actually two. Not very close to us but it would be good if we could say something/esko

Aihe: Stakeholder dialogue on sustainable finance and Call for feedback

Dear applicant to the Stakeholder dialogue on sustainable finance,

We would like to thank you once more for expressing your interest in our event. We apologise to those who could not watch the event in person, as we received more than twice the number of applications we could have accommodated.

We would like to let you know that there is a [recording](#) of the event available. Additionally, on the event page you can find the [slides](#) presented by the speakers.

The event has also foreseen calls for feedback on TEG reports on Taxonomy and Climate benchmarks and benchmarks' ESG disclosures. It is our pleasure to inform you that both calls for feedback are now open.

Today, the TEG has launched a [call for feedback](#) on its report on [Taxonomy](#) published on 18 June 2019. Stakeholders are invited to comment on the proposed activities identified by the expert group that contribute substantially to climate change mitigation and adaptation and the proposed technical screening criteria. Stakeholders are also called to answer questions on the usability and future development of the taxonomy. The [call for feedback](#) will close on 13 September 2019.

Recently, the TEG also opened a [call for feedback](#) on its Climate benchmarks and benchmarks' ESG disclosures, accompanying the publication of the [interim report](#). The call will close on 2 August 2019.

Kind regards,

Stakeholder dialogue event team
