

Chief Executive's Report

July 2019

Webinars

- ✚ The last webinar 'Meeting the challenge of ageing in the EU', held on June 25, has been very successful in terms of attendance. It has been less successful in terms of timely collaboration from speakers. We have been observing for some time that some speakers are not (fully) complying with the time table in preparation for the webinar. Due to limited preparation, speakers do not read the instructions in full, do not participate in the necessary test sessions, send their presentations far too late (up to a few hours before the start of the webinar) and dial in too late or simply forget to dial in. In this recent webinar it took 30 mins (out of a two hour session) before everything was more or less settled. In the future, we will have to be stricter with speakers to prevent such problems as we need to deliver quality to our members' members.

Member Associations annual fee 2019

- ✚ Just to note, that we have not yet received the 2019 annual fee from the associations from Romania and Ukraine. This represents an outstanding balance of EUR 1,040.
