

Webinar on GDPR

End October 2018 | 10.00-11.30 CEST

(tbc)

PURPOSE

The new GDPR - legislation will change the way in which businesses handle customer data, creating new rules around customer consent, profiling, data portability and the customer's 'right to be forgotten'. Any company handling European citizens' data will have to comply with this regulation, and the GDPR is going to have a huge impact on many sectors, including insurance. As key data users, actuaries will be highly impacted, and we will have to change the way we store and treat data, the way we model and the way we communicate. This webinar aims to give some insight for actuaries on how they can take into the changes GDPR is bringing to everyday work.

Questions can be submitted via chat throughout the webinar.

PROGRAMME

- 10:00-10:05 **Welcome and introduction**
Kirsten Sasady, Chairperson of the GDPR Working Group and Member of the Insurance Committee
