

AAE Professionalism Committee

Survey on ESAPs 2019

Results

Background

During the meeting of the Professionalism Committee in Utrecht members have agreed on a questionnaire similar to a corresponding survey by the IAA to monitor how ESAPs are assessed and how they are applied.

Members of the Professionalism Committee have also agreed to gather the information requested themselves and report back to the Professionalism Committee during the next meeting in Sofia.

A survey to collect comparable information from member associations was therefore sent to the members of the Professionalism Committee on 8 January 2019 with a deadline of 15 February which has been extended to 1 March 2019.

Responses received

18 of the 32 FMAs represented on the PC responded to the survey. The responses are summarised in this presentation:

Thank you for
completing the
survey!

2. Does your association consider ESAPs adopted by the AAE as helpful for your association?

3. Has the development of ESAPs by the AAE increased your association's confidence in the quality of actuarial services in Europe?

4. Does your association communicate with members about ESAPs adopted by the AAE?

5. Are some or all of your members subject to standards of actuarial practice?

6. By whom are standards set?

(applies only to member associations where some or all of their members are or may be subject to actuarial standards of practice)

■ Responses

Other entities:

Financial Reporting Council (UK)
Pension Accounting Standard
Board (Norway)

7. Has your organisation (or the standard setter for actuaries of your association) adopted, or asserted consistency with, any ESAPs in your jurisdiction?

(applies only to member associations where some or all of their members are or may be subject to actuarial standards of practice)

8. If you've chosen No for any ESAP above, what are the reasons for that?

(applies only to member associations where some or all of their members are or may be subject to actuarial standards of practice)

9. Has your organisation (or the standard setter for actuaries of your association) made any substantive amendments to its own standards as a result of ESAPs being adopted by the AAE?

(applies only to member associations where some or all of their members are or may be subject to actuarial standards of practice)

10. Has the development of ESAPs influenced or aided the development of local standards?

(applies only to member associations where some or all of their members are or may be subject to actuarial standards of practice)

11. Is consistency with ESAPs an objective of your organisation?

12. Has your association faced any problems in adopting or attaining consistency with ESAPs because of lack of clarity regarding the scope and the intended application?

13. Has your organisation faced any other difficulties in interpreting, adapting or adopting ESAPs?

Explanation: Currently, there is no obligation to apply the ESAP. Without any legal/regulatory/mandatory obligation we expect little buy-in or adoption of the standard.

■ Responses

14. Are there any other comments or suggestions that you would like to make regarding the ESAPs or the due process for developing them?

Spain: We have organized a WG about professionals standards. Based on the results of said WG, and the response of our professional collective, we will see the convenience to deepen the organization of the application of standards in our market.

Switzerland: It would be valuable to have standards on the use of Big Data and Artificial Intelligence by Actuaries.

Topics for discussion

1. On the survey itself
 - Rather low response Rate: 56 % of Committee members
What can we do to raise the no. of responses?
 - How often do we wish to repeat this exercise?
2. General assessment of ESAPs (Q2, Q3 and Q11)
 - Is there anything to be done to improve the quality of ESAPs and to raise confidence in them?
3. Implementation of ESAPs
 - Are there specific reasons why decisions on implementation couldn't be taken yet?
4. Future standards
 - Are there important topics which should be addressed in an ESAP?
