

ACTUARIAL ASSOCIATION OF EUROPE

Board wishlist for Committees

Esko Kivisaari, September 2018

Changes in EU institutions

- There will be a new Parliament and a new Commission next year
- The AAE will produce a 'white paper' on its wishes for the action plan of the new Commission.
- The Board of the AAE will be in charge but it is asking help from the committees

Wishes for the Committees

- What are the central topics in near and more distant future in the area of your committee where the actuarial profession should be active, for its own good and/or for the general good, and contributing to the well-being of the society?
- What are the key European institutions and other relevant stakeholders that we should contact to make our point?
- What issues, probably from the above, would your committee want to see in the action plan?
- Committee input to Ad/Esko on 26 October at the latest.

Quality of output

- With good experience from last summer - the importance of preparation for the meetings with stakeholders
- We need to have one-page handouts that are clear enough to catch the interest of a decision-maker to our position
- There can be a longer technical document attached, but we cannot introduce ourselves with such a long/technical document – an example for such a short paper is our IFRS 17 handout
