### **AAE Professionalism Committee Meeting: Member Report**

Dear David,

Following your request on getting a report from each Committee Member, you will find below a summary of the key developments at the Swiss Actuarial Association since the Lisbon meeting from a Professionalism Committee's perspective .

**Clarification of the role of the Appointed Actuary in the Swiss Insurance Law** : The a about the Appointed Actuary's role in the Swiss Insurance Law have been validated and will be submitted to a vote and implemented by 2020. As a consequence, Appointed Actuaries' have direct access to the Board and the responsibilities between the executive board and the appointed actuary are well defined.

**CERA Members:** The Swiss Actuarial Association currently has 29 CERA Members and there are 20 candidates currently going through the CERA accreditation process.

**Fully qualified actuaries (FQA):** The number of FQAs complying to the mandatory CPD are 85% compared to 90% last year. Three FQAs haven't fulfilled the CPD requirements for three consecutive years and therefore have lost the qualification.

**Derived-Membership:** An actuary wanted to keep its Derived-Membership while stopping its Home-Membership. We have contact ed the Home-Association which didn't support the request. As a consequence and for the benefit of the other associations, we propose to account for this scenario in either the MRA or in an update d Heubeck letter.

Yours sincerely,  
Christophe Heck
