We also plan to publish the Bachelor and Master programs at TU Wien in English, but this will take quite some time (several months or even a year).</p>	09/05/14
Greece	R – ensure new students meet requirements of new AAE syllabus from September 2014	
Belgium	A – some universities had gaps	
Bulgaria	A – need to complete spreadsheet with new syllabus details	
Croatia	A – need to comply by 1 <sup>st</sup> September 2014 for new students	
Finland	<p>A – Further information now provided for consideration:  <u>Part</u> of the Finnish actuary examination Core Syllabus is fulfilled by taking specific courses in the University. Specific university courses are approved as a part of the Actuary Examination after it is approved by the Examination Board (under MHSA). In the Approval process of the University Course applicants have to provide contents of the course for Examination Board. After that Board decides is the specific course approved and included as a part of applicant's examination. It should be kept in mind that in Finland there are only couple of universities where one can do these required specific courses so that the Examination Board gets quite quickly familiar with appropriate courses and their contents.</p>	11/05/14
