

Due to the ongoing COVID-19 pandemic, the 4th European Congress of Actuaries was postponed to June 2022 and many other events took and take place online only these days.

Several experiences of the past year have shown that there is a great interest and demand for virtual offers among the European actuarial community. Online events are also an excellent opportunity to continue the exchange with all important stakeholders of the profession.

**The AAE is therefore delighted to announce two new formats taking place in the first half of 2021:**

## aaeroundtable

### on Sustainability and Climate Risks

**23 March 2021, 10.00-11.30**

This first roundtable event will present an in-depth discussion with representatives of the EU Commission, EIOPA and AAE on how actuaries can contribute to achieving the environmental goals of the EU.

Past Chairperson AAE

## 2 & 3 June 2021

With the EAD 2021, the AAE introduces a 2 day virtual event format providing CPD to all European actuaries.

The program will consist of 4 plenary sessions with high-ranked guest speakers as well as over 20 presentations on various topics ranging from latest developments in traditional actuarial work areas to new fields of activity like emerging risks, data sciences and wider fields. The Call for Papers will be released soon.

★ **Emerging Risks: Identification, Taxonomy and Mitigation**

★ **Manage Uncertainty in Data**

★ **Wider Use of Actuarial Skills**

★ **Back to the Roots: New Approaches in Traditional Fields**

**SAVE THE DATE!**
