News from member associations

- **The Actuarial Society of Finland will celebrate its 100th anniversary on 28 April 2022.**

The Actuarial Society of Finland was founded in uncertain times on 21st April 1922. Finland had become independent only a few years earlier in 1917, after which there had been serious civil unrest.

These 100 years have seen Finland developing into one of the advanced post-industrial states with a high level of education. Our profession has developed along the country and given a strong input into its highly developed social security and pension system as well as many innovative solutions in insurance business. Finnish actuaries have also played a strong role in the international arena by, for example, organising the very successful ICA 1988, and participating actively in the AAE and the IAA levels. Started with just a few members, our association now has 365 members, of which 99 are full members.

The celebration will take place on the 28th of April and will start with a seminar on professionalism. We are very pleased that Mária Kamenárová, chairperson of the AAE and Inga Helmane, AAE Board member, will attend the event as well as Roseanne Harris, President of the IAA and many other colleagues.

- **75th anniversary of the Instituto dos Atuários Portugueses**

The Congress of Instituto dos Atuários Portugueses was scheduled to take place in 2020 to celebrate the 75th anniversary of our Association but was postponed due to
