- 15-17 November 2023, [XIV Italian National Actuarial Congress](#) - in-person event in Milan, Italy.

[Register here!](#)

In the last Congress (Rome 2021) a long term project was launched towards the “**Global Actuary**” attended by 1.210 participants, including stakeholders. **Actuaries in particular were always considered to be more involved in**

[Subscribe](#)[Past Issues](#)[Translate ▼](#)

*and systemic risks, new data processing techniques, including artificial intelligence and machine learning, banking, finance, welfare plans, including the supplementary health private funds and the non-financial corporates.*

Summing up the goal: to continue to further develop the traditional fields and at the same time to develop the new fields.

In the next Congress these topics will be considered from the Italian point of view but also looking at the European and international scenarios.

**The title of the Congress** is the exact summary of the above mentioned contents and goals: ***"the global actuary for a sustainable world: tradition, innovation and emerging risks"***.

The Congress, as usual, will be open for stakeholders.

Further details available on the

websites: [www.ordineattuari.it](http://www.ordineattuari.it) and [www.actuary-isoa.com](http://www.actuary-isoa.com).

## NEWS FROM THE AAE

### Scheduled meetings with stakeholders

- On 17 October 2023, the AAE will meet with Didier Millerot and relevant experts from DG FISMA, to discuss various topics of mutual interest.
- On 23 October 2023, the AAE will meet with relevant EIOPA experts to discuss the joint EIOPA-ECB paper on policy options to reduce the climate insurance protection gap.

### EU: Climate Resilience Dialogue publishes interim report

The AAE – represented by Jérôme Crugnola-Humbert and Loudina Erasmus, and supported by Daphné de Leval and Lutz Wilhelmy - actively contributed to the Climate Resilience Dialogue and the EC has now published the interim report.

The Climate Resilience Dialogue (CRD) was launched by the EU Commission late last year and aims to bring together public and private stakeholders (e.g., Insurance Europe, EIOPA, Reinsurance Advisory Board, the CRO Forum and many other NGOs and industry associations) to investigate ways to narrow the climate protection gap. The CRD's work itself is structured in two sub-groups focusing on (i) insurance underwriting and (ii) adaptation investment.

The CRD has now issued an [interim report](#) which includes a definition of the climate protection gap and presents preliminary findings of the group on the identified gaps, the approach towards measuring and analysing them. A final report, to be published by the end of June 2024, is set to feature possible solutions to address the gaps.

### Submission deadline

If you have news to share that may be interesting for AAE delegates, please make sure to submit your news before the 18<sup>th</sup> of every month.

The AAE Newsletter is composed by the AAE Communications Panel.
