- The EAA would like to thank all those who responded to the Call for Speakers have thus contributed significantly to the compilation of a first-class and varied conference program.
- This year's program is dedicated to the highly relevant topic of Artificial Intelligence with three presentations by international experts. Keynote speakers will discuss the application of large language models in the insurance industry and the impact of AI on the actuarial profession. Other presentations will cover topics such as quantifying uncertainty for an AI-based solvency capital estimate and using machine learning to predict health insurance costs.
 - See the [full program here](#).
