

AI education for actuaries: from machine learning to generative AI

Friday 13 June 2025 | 12:00-13:30 CEST

PURPOSE

The Education committee of the AAE recently published guidelines for CPD in AI. The idea is to help actuaries and associations to understand which type of AI-related skills are related to actuarial use cases, and to help designing adapted CPD programs. The first part of the webinar will be focused on a presentation of these guidelines. A deeper focus on Generative AI, its consequences on education, and how it could be included in the training of actuaries, will be made throughout the rest of the program.
