Call for Expressions of Interest

Chairperson of the AAE Solvency II Working Group

The Actuarial Association of Europe (AAE) is launching a call for expressions of interest for the (voluntary) role of Chairperson of the Solvency II Working Group, following the retirement of Siegbert Baldauf, who previously served as Chairperson of the Working Group.

About the Solvency II Working Group

The Solvency II Working Group plays a central role in the AAE's technical and policy activities, including contributions to European consultations, publications, and engagement with key stakeholders. Ensuring strong technical leadership and continuity of the group's work is therefore essential.

Who You Are

The AAE is seeking a chairperson who is technically grounded in Solvency II and has a strong interest in European prudential insurance regulation. The role involves providing technical and strategic leadership to the Working Group, including preparation and chairing of meetings, coordination of technical discussions, and oversight of contributions to AAE outputs. Additionally, the SII WG Chair may be involved in meetings and discussions with European Stakeholders and policymakers such as the European Commission and EIOPA.

Your role

The expected time commitment is approximately 5–6 hours per month, recognising that workload may vary depending on regulatory activity. The AAE support team will continue to provide operational and technical support to the Working Group, including coordination of consultation processes, support with the drafting and consolidation of consultation responses, assistance with the preparation and publication of papers and documents, as well as the organisation and scheduling of Working Group meetings.

Ready to apply?

Expressions of interest should consist of a short motivation note, and a brief summary of relevant experience. These should be submitted by **28 February 2026** to Lauri Saraste (Lauri.Saraste@lahitapiola.fi) and Monique Schuilenburg (moniques@actuary.eu).
