NEWSLETTER

#4 - 2026 May

The AAE Newsletter – the regular publication by the European umbrella organisation of the actuarial associations in Europe – provides you with the latest information from the AAE and its members.

Contents

- **News from the AAE**
- **Upcoming events**
- **Publications**
- **Consultations from stakeholders**

News from the AAE

AAE Spring Meetings 2026 from onsite to virtual - commitment remained

First and foremost, the AAE wishes to **warmly thank the local hosts and organisers, the Cyprus Association of Actuaries**, who invested considerable time, effort and professionalism in preparing this event. Their work was outstanding, and it was **a genuine disappointment for all of us not to be able to travel to Cyprus and meet in person as planned.**

All committee meetings took place in virtual format on 23 and 24 April 2026, ensuring full continuity of discussions, deliverables and engagement.

We thank all volunteers for their continued commitment and flexibility - you are essential to the success of the AAE, particularly in challenging circumstances.

Submission deadline

If you have news to share that may be interesting for AAE delegates, please submit your news before the 18th of every month.

Upcoming events

AAE's Latest webinar

What Do Actuaries, Doctors and Astronauts Have in Common? AI Governance.

Artificial intelligence is reshaping industries at an unprecedented pace and with it comes the urgent need for robust governance frameworks that ensure accountability, transparency, and trust.

On 13 April 2026, the Actuarial Association of Europe hosted a cross-sector webinar bringing together experts from insurance, medicines regulation, and space to explore how each profession is rising to the challenge of governing AI responsibly.

One Challenge, Three Sectors: AAE's Cross-Industry AI Webinar

Moderated by Esko Kivisaari, Chairperson of the AAE AI and Data Science Working Group, the session opened with an actuarial perspective on high-risk AI systems, presented by Bogdan Tautan (AAE Risk Management Committee Chair) and Claudio Senatore (Vice-Chairperson, AAE AI-DS Working Group).

Speakers from the European Medicines Agency Denise Umuhire and Orsolya Eötvös shared their experience governing AI in medicines regulation, while Ora Buch Kornreich of the European Space Agency presented an impact analysis of AI regulation in the navigation sector.

Get involved

The AAE AI and Data Science Working Group actively welcomes contributions from members across our community. Whether you are working on AI governance in your organisation, researching AI risk, or simply keen to engage with this rapidly evolving topic, we would love to hear from you. 📩 Contact the AAE Secretariat at info@actuary.eu to find out how to contribute to the AI-DS Working Group
